Please remember:

1. If you place a hold on items from Sasebo, or Yokosuka their availability is based on when their libraries open. It will be best to select our copies.
2. We will be working with limited staff during this time. Treat us like the Pharmacy; put your order in and wait a day before pick up.
3. We will be quarantining returning materials according to CDC guidelines. Plus, safety. Con, longer wait times. We know... being responsible isn't always fun. But it is necessary.
